

# LLD OF CONNECTX BACKEND

Name(s) : Neel Pritesh Khambhata (7167380), Nitish Bhardwaj (7201791)

## Overview

ConnectX is an advanced automation software designed to enhance social media engagement for businesses. By utilizing cutting-edge AI technologies, ConnectX enables dynamic, personalized interactions with customers across various social media platforms. This platform empowers businesses to streamline their social media operations, improve customer engagement, and gain valuable insights through data analytics

## Class Diagram

### CLASSES

#### User

- Attributes:
  - + user Id: String
  - + name: String
  - + email: String
  - + password: String
  - + subscription Plan: Subscription
  - - Accounts: List<Account>
- Methods:
  - + signup (): void
  - + login (): Boolean
  - + view Dashboard (): void
  - + logout (): void

#### 2. Account

- Attributes:
  - + accountId: String
  - +username:String
  - + linked Date: Date
  - + status: String
  - - posts: List<Post>
- Methods:
  - + logout (): void
  - + disconnect (): void
  - + fetch Posts (): List<Post>
  - + login (): Boolean

#### 3. Dm Handler

- **Attributes:**
  - + automationId: String
  - + triggerKeyword: String
  - + responseMessage: String
- **Methods:**
  - + setAutomation(triggerKeyword: String, response: String): void
  - + triggerDM(message: String): boolean
  - + handleError(error: DMError): void

## 4. Subscription

- **Attributes:**
  - + plan\_Id: String
  - + plan\_name: String
  - + price: Double
  - + features: List<String>
- **Methods:**
  - + upgrade Plan (planId: String): void
  - + Cancel Subscription (): void

## 5. AIResponse

- **Attributes:**
  - + responseId: String
  - + contextData: String
  - - trainingData: List<String>
- **Methods:**
  - + generateResponse(message: String): String
  - + trainModel(data: List<String>): void

## 6. Analytics Dashboard

- **Attributes:**
  - + dashboard\_id: String
- **Methods:**
  - + displayDashboard(): void

## 7. Notification Manager

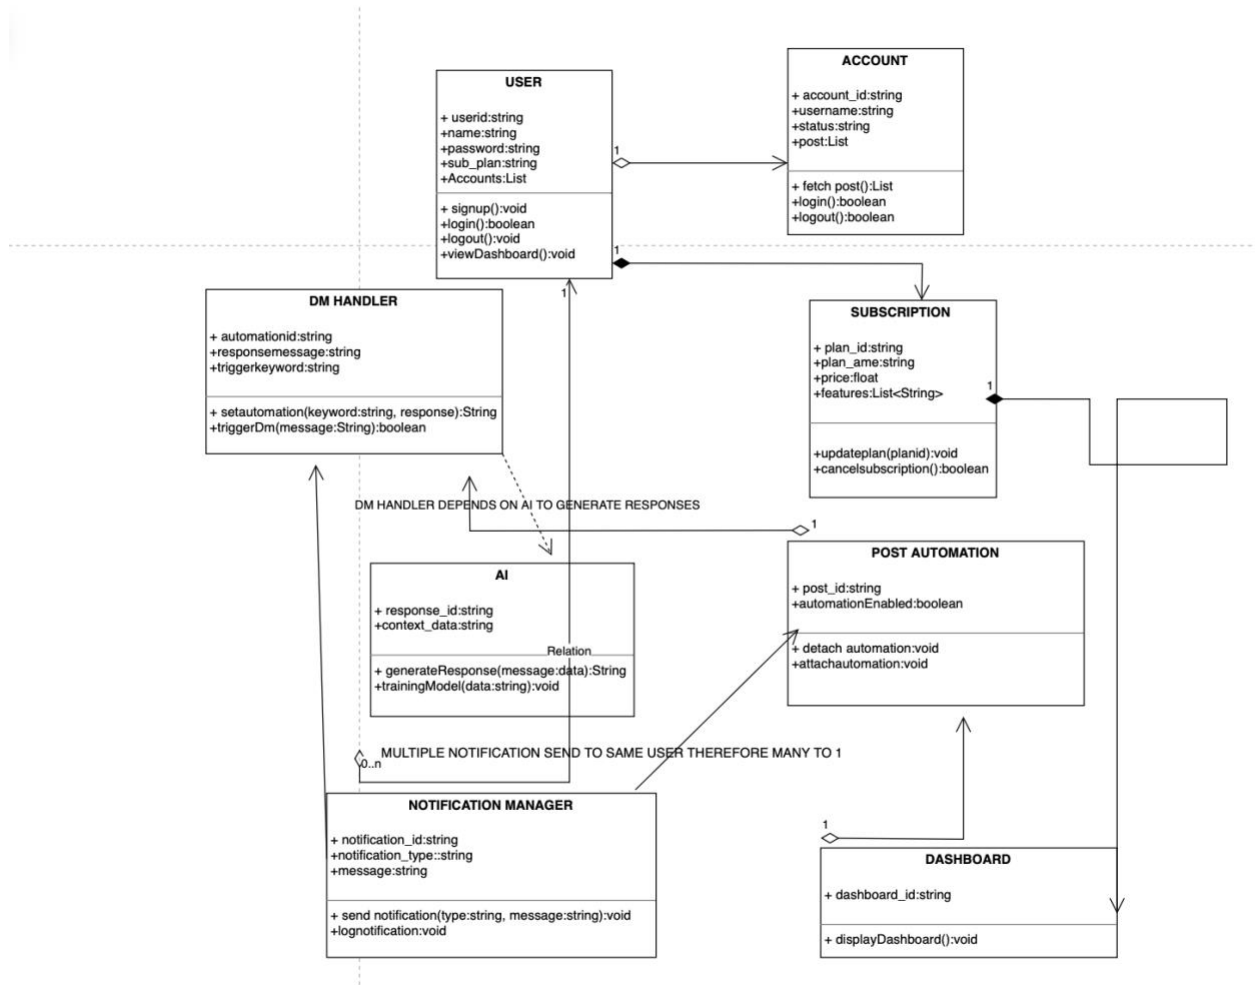

- **Attributes:**
  - + notification\_Id: String
  - + type: String
  - + message: String
- **Methods:**
  - + sendNotification(type: String, message: String): void
  - + logNotification(): void

## 8. Post Automation

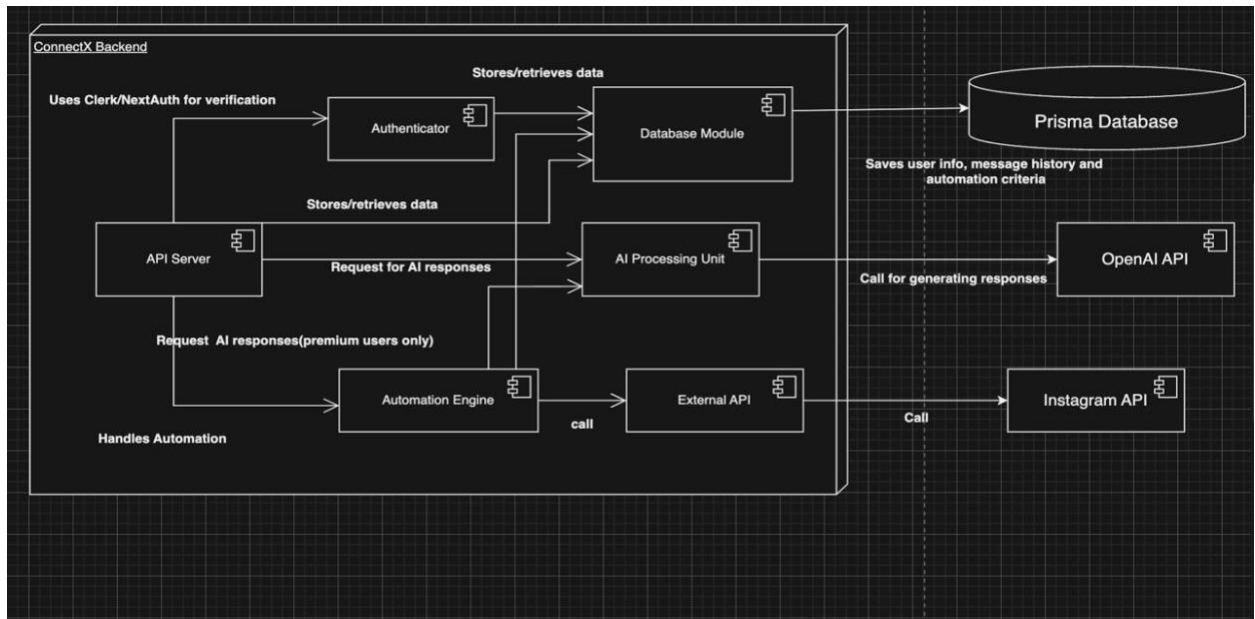

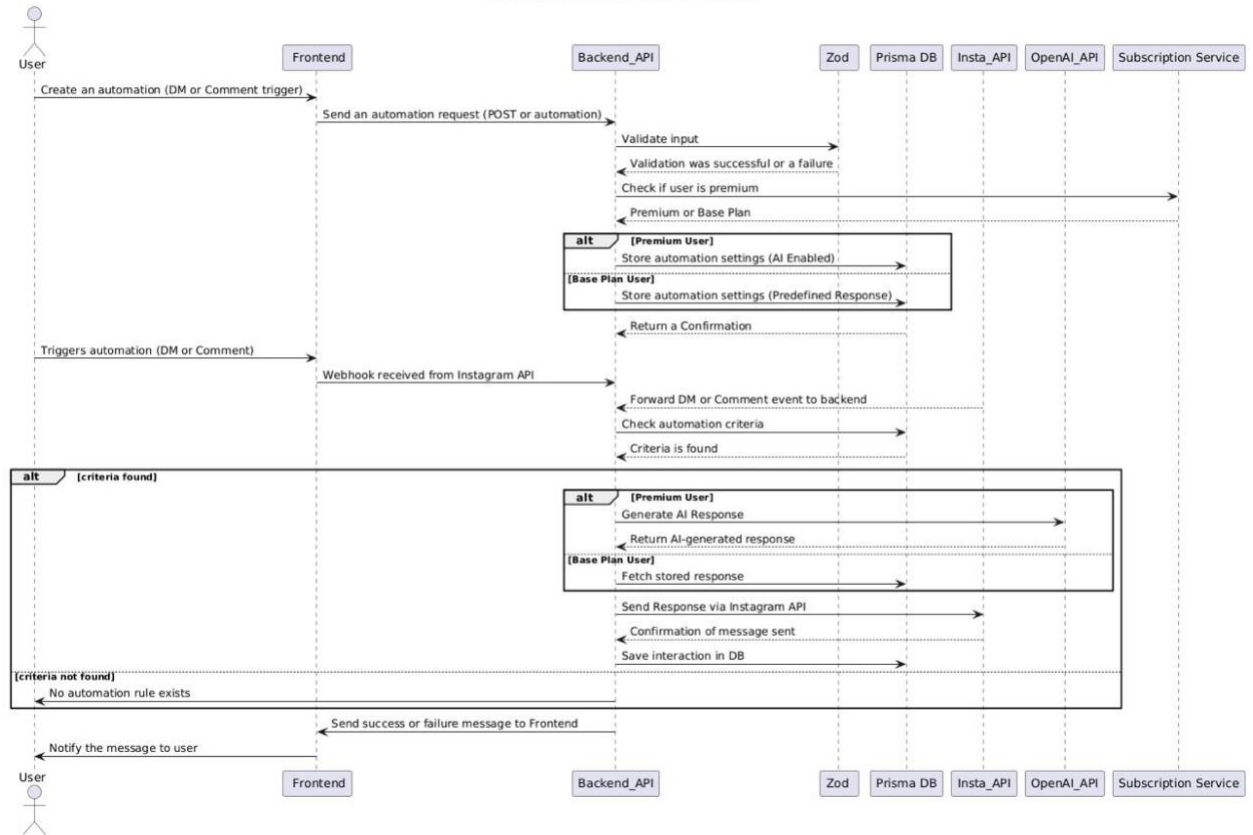

- **Attributes:**
  - + postId: String

- o + automationEnabled: boolean
  - o + associatedTriggers: List<DMHandler>
- **Methods:**
  - o + attachAutomation(): void
  - o + detach Automation(): void

## CLASS DIAGRAM

# API Interaction & User Flow in ConnectX

## STRATEGIES TO HANDLE ERRORS AND EXCEPTIONS

Exception Type	SCENARIO	HOW WE WILL HANDLE
Network error	API failure when connecting social accounts	Retry request with exponential backoff; Show user-friendly error message
Validation Error	Invalid user input during automation	Display inline validation messages
Authentic Error	Invalid login credentials	Show "Incorrect credentials" message
DataNotFound		No data available with responsive UI
Timeout Exception	Long running request to APIS	Notify user to try later

## API ENDPOINTS

### User Management

Endpoint	Method	Description	Request Body	Response	Error Codes
/api/auth/login	POST	Authenticates user	{username, password }	{token }	401, 500
/api/auth/register	POST	Registers a new user	{name, email, password }	{ userId, token }	400, 500
/api/auth/logout	POST	Logs user out	{token }	{success: true }	401, 500

### Account Management

Endpoint	Method	Description	Request Body	Response	Error Codes
/api/account/connect	POST	Connects Instagram account	{ accountType, accessToken }	{ success: true, accountId }	400, 403, 500
/api/account/disconnect	DELETE	Disconnects an account	{ accountId }	{ success: true }	404, 500

Endpoint	Method	Description	Request Body	Response	Error Codes
/api/account/details	GET	Fetches account details	{ accountId }	{ accountData }	404, 500

## DM Handler

Endpoint	Method	Description	Request Body	Response	Error Codes
/api/dms/send	POST	Sends an automated DM	{ recipientId, message }	{ messageId }	404, 500
/api/dms/list	GET	Fetches DM history	{ accountId, dateRange }	{ messages }	404, 500
/api/dms/delete	DELETE	Deletes a DM	{ messageId }	{ success: true }	404, 500

## Subscription Management

/api/subscription/create	POST	Creates subscription plan	{ userId, planType, paymentInfo }	{ subscriptionId }	400, 402, 500
/api/subscription/cancel	POST	Cancels subscription	{ subscriptionId }	{ success: true }	404, 500
/api/subscription/status	GET	Fetches subscription status	{ userId }	{ subscriptionDetails }	404, 500

## Post Automation

Endpoint	Method	Description	Request Body	Response	Error Codes
/api/posts/schedule	POST	Schedules a post	{ accountId, content, scheduleTime }	{ postId }	400, 500

/api/posts/delete	DELETE	Deletes a scheduled post	{ postId }	{ success: true }	404, 500
/api/posts/list	GET	Fetches scheduled posts	{ accountId }	{ posts }	400, 500

## AI Response Manager

Endpoint	Method	Description	Request Body	Response	Error Codes
/api/ai/generate-response	POST	Generates DM response	{ messageContext }	{ aiResponse }	400, 500
/api/ai/feedback	POST	Sends feedback to AI	{ responseId, feedback }	{ success: true }	400, 500
